OFFICE OF THE CITY MANAGER

August 17, 2017

To the Honorable City Council
of the City of Pasadena

Mayor and Councilmembers:

WEEKLY NEWSLETTER

1. Commercial Industrial Inspections:

As part of the Regional Water Quality Control Board's (RWQCB) Municipal Separate Storm Sewer System (MS4) Permit requirements, the City is required to conduct two rounds of inspections at commercial and industrial facilities (such as restaurants, auto body shops, nurseries, manufacturing sites, etc.), to ensure compliance with the City's Stormwater Management and Discharge Control Ordinance, Pasadena Municipal Code Section 8.70. Facilities in the City are required to prevent the discharge of pollutants into storm drain systems, and eliminate or significantly reduce outdoor pollutant sources that are likely to be washed into the storm drain system, such as antifreeze and engine oil.

According to Ara Maloyan, Director of Public Works, the initial inspections will begin in August and continue through December. The attached memorandum and sample letter from Mr. Maloyan provides additional detailed information.

2. Government Finance Officers Association (GFOA) Award:

The *Certificate of Achievement for Excellence in Financial Reporting* has been awarded to the City of Pasadena by the Government Finance Officers Association (GFOA) of the United States and Canada for its Fiscal Year 2016 Comprehensive Annual Financial Report (CAFR). This is the eighteenth consecutive year that the City has received this award.

The *Certificate of Achievement* is the highest form of recognition in the area of governmental accounting and financial reporting and its attainment represents a significant accomplishment by a government and its management. The City's CAFR has been judged by an impartial panel to meet the high standards of the program including demonstrating a constructive "spirit of full disclosure" to clearly communicate its financial story and to motivate potential users and user groups to read the CAFR.

An *Award of Financial Reporting Achievement* has been awarded to the Department of Finance and Bob Ridley, Controller, the designated responsible lead, and the Finance Department accounting team for preparing the award-winning CAFR. The GFOA is a nonprofit, professional association serving approximately 19,000 government finance professionals with offices in Chicago and Washington, D.C.

3. New Grants at Public Health and Vector Control District Annexation:

I have attached a memorandum from Michael Johnson, Director of Public Health that highlights two important grants that they have received this year. They received the Kresge Foundation – Transforming Public Health grant and the California Department of Public Health – Oral Health Initiative. Additionally, in regards to the Vector Control Annexation, the next step in the transfer of this service from the City to the San Gabriel Valley Mosquito and Vector Control District are detailed in the memo.

4. Crime Statistics for Metro Gold Line Stations:

The Metro Gold Line light rail system is a great benefit to those who live, work and visit Pasadena. Ensuring the safety and security of passengers is vital to the success of the System. Currently, the Los Angeles County Sherriff's Department is responsible for public safety and aboard the trains and at the Metro stations. The Pasadena Police Department provides additional support at the stations.

Attached is a statistical report on Part 1 crimes (e.g. assault, burglary and theft) reported at the City's six Gold Line Stations for the period of January 2016 to June 2017 including an area extending 500 feet in each direction from the stations. Calls related to homeless individuals were also reviewed. As indicated on the attachment, the Fillmore Station tops the list in regard to transient calls for service (223), followed closely by the Lake Avenue Station (220); however, the stations with the greatest number of Part 1 crimes reported were actually the Del Mar Station and the Memorial Park Station, with 70 and 68 Part 1 crimes reported respectively.

The Police Department utilizes such data to deploy resources and will continue to work with the Los Angeles County Sheriff's Department to address safety concerns at the Gold Line Stations. You are encouraged to report any suspicious activity to the Police Department immediately. Remember – if you see something, say something!

5. Foothill Freeway (I-210) Closures for Pavement Rehabilitation - Update:

The California Department of Transportation (Caltrans) has provided an update to the closed portions of the Foothill Freeway (I-210) as part of a pavement rehabilitation project which began on Monday, June 12 and will now run through the month of August. In addition, beginning the week of August 14, Caltrans will make temporary changes along Westbound Foothill Freeway from Lincoln Avenue to Foothill Boulevard. Construction crews will restripe and shift lanes towards the median. The attached two news releases from Caltrans provide additional detailed information.

6. Legal Advertisements and Public Notices:

I have attached a memorandum from Mark Jomsky, City Clerk, which provides this week's submission of upcoming legal advertisements and public notices set for publication. In addition, the webpage for posting public notices and advertisements has been updated with the attached information and, can be accessed from the City's home webpage http://www.cityofpasadena.net. If you require additional detailed information on these legal advertising and public notices, please contact Mr. Jomsky at (626) 744-4709.

Respectfully Submitted,

Julie A. Gutierrez
Assistant City Manager

MEMORANDUM - CITY OF PASADENA
DEPARTMENT OF PUBLIC WORKS

DATE: August 9, 2017

TO: Steve Mermell, City Manager

FROM: Ara Maloyan, P.E., Director of Public Works

RE: Commercial/Industrial Inspections

As part of the Regional Water Quality Control Board's (RWQCB) Municipal Separate Storm Sewer System (MS4) Permit requirements, the City is required to conduct two rounds of inspections at commercial and industrial facilities (such as restaurants, auto body shops, nurseries, manufacturing sites, etc.), to ensure compliance with the City's Stormwater Management and Discharge Control Ordinance, Pasadena Municipal Code Section 8.70. Facilities in the City are required to prevent the discharge of pollutants into storm drain systems, and eliminate or significantly reduce outdoor pollutant sources that are likely to be washed into the storm drain system, such as antifreeze and engine oil.

There are approximately 600 such commercial/industrial facilities in the City. The City's NPDES (National Pollutant Discharge Elimination System) consultant, John L. Hunter & Associates, will be conducting the inspections during normal business hours. Inspectors will be ensuring pollution prevention practices such as proper storage and containment of materials including grease, oil, coolant and batteries; proper maintenance of trash bin areas; proper grounds maintenance; and proper washing practices that discharge to sanitary sewer rather than the storm drain system.

The initial inspections will begin in August and continue through December. Inspectors will examine sites, and when non-compliance is noted, a notice of violation may be issued, as well as educational materials provided. The inspectors will revisit sites and issue a second notice if compliance is still not attained. If a business owner does not comply after two citations, fines may be issued in accordance with Pasadena Municipal Code Section 8.70.130.

Businesses will receive a letter from the City Engineer to alert of upcoming inspections. A second round of inspections, as required by the City's MS4 permit, will be conducted approximately six months after the first round.

DEPARTMENT OF PUBLIC WORKS

July 17, 2017

Dear Business Operator:

The City of Pasadena is required by the State Water Quality Control Board, under the National Pollutant Discharge Elimination System (NPDES) Permit CAS004003, to conduct storm water compliance inspections at commercial and industrial facilities within its jurisdiction. This letter serves as a notice that your facility and operations will be inspected by the City for compliance with this Permit.

The purpose of a storm water inspection is to ensure that pollutants such as oil, waste water and trash do not discharge from your facility and into the storm drain system. Once pollutants enter the storm drain system (such as the curb drains in the street), they eventually flow to the ocean, causing ocean pollution. Please read the enclosed brochure for additional information on this pollution concern.

Inspectors will look for the following pollution prevention practices at your facility:

- **Proper storage and containment of materials, such as grease, oil, coolant, parts and batteries**
- **Proper maintenance of trash bin areas** – Ensure that lids are down and excess trash and debris has not accumulated around the enclosure.
- **Proper grounds maintenance** – Regularly clean parking lots, sidewalks, and other exposed areas using dry methods such as sweeping. Clean spills and leaks immediately using dry methods.
- **Proper washing** – If washing is a necessary business practice, ensure that it is performed in an area that discharges to the sanitary sewer rather than the storm drains.

The City has contracted with John L. Hunter and Associates, Inc. (JLHA) to conduct these storm water inspections during your normal business hours. The inspector will educate staff and answer any questions regarding the City's storm water program. If a deficiency is noted, you will be given a timeline to achieve compliance. Continued non-compliance issues and violations are enforceable through the City's Storm Water and Runoff Pollution Control Ordinance (Municipal Code Chapter 8.70).

100 North Garfield Avenue · P.O. Box 7115 · Pasadena, CA 91109-7215
(626) 744-4191

The City looks forward to working with you and your business to achieve full compliance and ensure the best water quality for the residents of the City, our waterways, and beaches. If you have any questions or would like more information on the City's storm water pollution prevention program, please contact John L. Hunter & Associates at (562) 802-7880 ext. 227, or Sean Singletary of my staff at (626) 744-4273.

Sincerely,

Kris Markarian, P.E.
City Engineer
City of Pasadena

(Chicago, Illinois)--The Certificate of Achievement for Excellence in Financial Reporting has been awarded to **City of Pasadena** by Government Finance Officers Association of the United States and Canada (GFOA) for its comprehensive annual financial report (CAFR). The Certificate of Achievement is the highest form of recognition in the area of governmental accounting and financial reporting, and its attainment represents a significant accomplishment by a government and its management.

An Award of Financial Reporting Achievement has been awarded to the individual(s) or department designated by the government as primarily responsible for preparing the award-winning CAFR.

The CAFR has been judged by an impartial panel to meet the high standards of the program, which includes demonstrating a constructive "spirit of full disclosure" to clearly communicate its financial story and motivate potential users and user groups to read the CAFR.

Government Finance Officers Association is a major professional association servicing the needs of nearly 19,000 appointed and elected local, state, and provincial-level government officials and other finance practitioners. It provides top quality publications, training programs, services, and products designed to enhance the skills and performance of those responsible for government finance policy and management. The association is headquartered in Chicago, Illinois, with offices in Washington, D.C.

CITY OF PASADENA PUBLIC HEALTH DEPARTMENT
DEPARTMENTAL MEMORANDUM

To: Steve Mermell, City Manager

From: Michael Johnson, Director, Public Health

Date: August 15, 2017

Re: **City Manager Weekly Report – New Grants at Public Health and Vector Control District Annexation**

Kresge Foundation – Transforming Public Health

In March, the Pasadena Public Health Department received notice to participate in the prestigious Emerging Leaders in Public Health Initiative, created and funded by the Kresge Foundation. The Health Department has now received notice of award of $125,000 to support services and trainings to assist in developing the Health Department's capacity to improve community health. This national initiative is aimed at helping current and future local public health leaders advance innovative models which improve their organizations and position them for new opportunities to meet the changing health needs of their communities. Leaders participate in an 18-month, action-oriented experience focused on the design and implementation of a transformative concept that shifts or expands the capacity of the local health department. Pasadena's participation as a team in only the second national co-hort of this program demonstrates the City's position as leaders in public health programming. For more information on the program, please feel free to log onto http://kresge.org/elph.

California Department of Public Health – Oral Health Initiative

The Pasadena Public Health Department has received a grant award in the sum of $172,427 from the State of California Department of Public Health to develop an oral health program. The funds are supported by Prop 56 (Tobacco Tax) passed by the voters in 2016. The funds will support the Department's Maternal, Child and Adolescent Health Program to improve the oral health of Pasadena residents by addressing issues which might impact oral health. These include efforts to reduce cavities and tooth loss, and promote good oral health. The program will work to build on the existing efforts in place in the community through collaboration with schools, providers, and other agencies providing oral health promotion and prevention and treatment services.

Vector Control Annexation

The Pasadena Public Health Department has confirmed the final approval of the tax transfer by the Los Angeles County Board of Supervisors on August 15, 2017 (document approved by the Pasadena City Council on July 24, 2017). This allows the

Local Agency Formation Commission of Los Angeles County (LAFCO) to hold a public hearing on September 13, 2017 to approve the annexation of Pasadena into the San Gabriel Valley Mosquito and Vector Control District for vector control services. Following this will be a 30 day "reconsideration period" whereby property owners may file a protest (pursuant to California Government Code Section 56895(a)), indicating what new or different facts that could not have been presented previously are claimed to warrant the reconsideration. If it is determined that reconsideration of at least 25% of landowners or of registered voters in Pasadena file protests, LAFCO may hold a protest hearing on November 8, 2017. If the LAFCO decision to approve the annexation continues, then immediately following, LAFCO files a Certificate of Completion with the Los Angeles County Register-Recorder/County Clerk. The annexation is effective at the date and time stamped on the filed Certificate of Completion.

Prior to the September hearing, the Public Health Department is sending a letter to all property owners in the City to advise them of this process, and to advise on the importance of vector control services in protecting Pasadena residents from disease illness and injury. This will include information on how to file a protest and where to receive additional information. Please direct any interested parties to their website (www.lalafco.org) for additional information about LAFCO law, policies, and procedures.

If you have any questions regarding any of these items, feel free to call me at (626) 744-6166.

FOR IMMEDIATE RELEASE

****UPDATE****

Lane Shift on Westbound Foothill Freeway I-210 For Pavement Rehabilitation

Pasadena and La Cañada Flintridge – Beginning the week of **August 21**, the California Department of Transportation (Caltrans) will make temporary changes along **westbound Foothill Freeway (I-210) from Lincoln Avenue to Foothill Boulevard.** Construction crews will restripe and shift lanes towards the median.

Both eastbound and westbound inner shoulders will be used as traffic lanes. The eastbound inner shoulder will become a temporary bypass lane for westbound traffic. A concrete barrier will separate the eastbound traffic and the westbound bypass lane for the safety of motorists. Two outer lanes on westbound I-210 will close as crews begin to replace the pavement along the freeway. The bypass lane allows all traffic lanes on westbound I-210 to remain open while work is underway, which will be in effect through spring 2018.

The Foothill Freeway is a major thoroughfare, serving commuters between Los Angeles and San Bernardino counties. As a result of heavy use, the road needs to be replaced with new pavement. The temporary traffic lane shift and closures are part of a $148.5 million pavement rehabilitation project on I-210. Once the project is completed in 2018, the new surface will provide a smoother drive for motorists, reduce time required for maintenance, and minimize the need for further lane closures. Motorists are advised to **"Be Work Zone Alert."**
