A Hillside Development Permit is required for a single-story addition exceeding 500 square feet, and for any new square footage above the first floor. Section 15301 exempts additions to existing structures, provided the addition will not result in an increase of more than 10,000 square feet when the project is in an area where all public services and facilities are available to allow for maximum development permissible in the General Plan, and the area in which the project is located is not environmentally sensitive.
