

NOTICE OF PUBLIC HEARING
TTM #82598

Project Location: 2411 Oswego Street, Pasadena, CA

Subject: The applicant, James Bullock, has submitted a Tentative Tract Map application to consolidate two land parcels into one land parcel, and allow the creation of eight air parcels on the one resulting lot, for residential condominium purposes. A new eight-unit residential project received Concept Design Review approval on September 17, 2018. This application only concerns the consolidation of two parcels into one and the creation of air parcels that will allow the sale of each dwelling unit. This application does not address the design or construction of the eight-unit project and does not include any proposed changes to the previous Design Review approval.

Environmental Determination: In conjunction with the Concept Design Review approval on September 17, 2018, it was determined that the project is Categorically Exempt from CEQA (Section 15332, Class 32, In-fill Development Project). It has further been determined that there are no changed circumstances or new information as part of the proposed Tentative Tract Map application that necessitate further environmental review and there are no features that distinguish this project from others in the exempt class; therefore, there are no unusual circumstances.

NOTICE IS HEREBY GIVEN that the Hearing Officer will hold a public hearing to consider the application.
