Construction of a new one-to-three-story mixed-use project with 7,309 square feet of commercial space, 48 residential units, and one level of subterranean parking.

Staff recommendation:

 1. Find that the application for Final Design Review was subject to environmental review in the Categorical Exemption adopted by the Hearing Officer for a previously approved application for Affordable Housing Concession Permit #11873 for the same project on November 7, 2018, and that there are no changed circumstances or new information which would require further environmental review.
 2. Approve the application for Final Design Review subject to conditions to be further reviewed prior to issuance of a building permit.
