Dear Matsue Sheppard:

My wife and I own the Japanese Garden. We are adjacent to the Westridge school - that is our back wall which we share with them. The wall is tall enough to hide and vehicles that would park in the double parked vehicles. There is a difference in level of approx. 5 feet lower than our property which should give them the difference in 'height'. We do not see this as a problem in any way. They are trying to be conservative in this application. I & my wife would be most happy to approve this application.

Thank you

Jim & Connie Walden
