As a Pasadena homeowner and business owner I support Republik coffee whole heartedly. Everything they have done has been first rate in my opinion.

I do my banking next door. And I've found Republik to be a wonderful place to walk to in the morning for great coffee and unique delicious food.

It would also be nice to stop by in the evenings for a taste of wine and a bite of cheese etc. The shop reminds me of a relaxing more European experience. It enhances the culture and ambiance of the neighborhood and will expand the culinary appeal too.

This part of Green street could use a bit more vitality in the evenings. I'm sure this proposal will help in that regard.

Thank you and all the best ,

Don Liddy
