Pasadena Avenues, immediately adjacent to our K-8 school, Singer Park, and the shopping plaza across the street. Hundreds of pedestrians from our school community walk among these locations daily when it's not a pandemic. The intersection has caused several pedestrian and automobile collisions in it's current state with less traffic flow. My own car has been hit there by a driver speeding north on Pasadena Avenue.

We have not seen the design of these intersections and streets, nor reviewed a traffic study. Last week DoT said that we can meet in July to discuss. It is important to know the design and the impacts of the project before approvals are given and the findings can be determined to be met. There are several worthy, permanent projects on Pasadena's list of projects submitted for Measure R funding which may be a better long term investment of this opportunity from Metro.
