**Subject:** Questions for Planning Commission Meeting 5/27/2020 - Item C

**CAUTION:** This email was delivered from the Internet. Do not click links or open attachments unless you know the content is safe.

### **Questions for Planning Commission Agenda Item C (Accessory Dwelling Units)**

1. How is a prefabricated modular ADU reviewed and processed?
2. What is the time/length of the review process?
3. Is it possible to schedule a preliminary review to make sure all requirements are being met/submitted before the official permit submission?
4. What is the process for the Housing Department's ADU Pilot Program? Can the consultant team work with the City to streamline the process?
5. If there are modifications or variances that are needed, how does this affect the review process?
6. Will the submission process be different due to COVID-19? Can permit submissions be made online?

Thank you!
