-----

Hello Good afternoon i am Francisco Hernandez I live on 357 Adena st Apt A PasadenaCa. The reason for this email is because I am very concerned about the construction that is being planned were I currently live. Due to COVID 19 i dont think its a very good time to take initiative in the construction process. My wife and I have been unemployed and sadly we were not able to recieve any help from the government. We are having a very difficult time trying to just pay the rent. We have been doing whatever we can in these moments it's really difficult to find somewere to go. We are very worried about our children who still depend on us. We would need to get our jobs back for us to then take a next step. I ask for you guys to please for now don't accept to construction proposal just because everyone is going through a rough time due to COVID. There is 7 families living in this area and many of them still have children who depend on their parents. I hope you take in consideration my proposal. That is why I wouldnt like you to proceed with this construction proposal. If COVID hadn't affected us as bad as it did It would be a totally different situation but the economy is very bad right now that moving would make things 10x worse. Thank you so much. Have a Good Afternoon.
