Comments	The demolition of said apartments will only add to the already problem of vacant condominiums in the city of Pasadena , I am not in favor of the proposition of replacement apartments that house some

Of our working class with with luxuries condominiums. It will create great mess with construction along with adding to the city traffic. I am opposed to the idea of trying to further push out lower class Pasadena city citizens because of the economic impact we are already seeing especially with the pandemic we are living through right now . Studies have shown that it will take up to four years for a person to get back on their feet after a pandemic,I believe this shouldn't be a time to make the families impacted by the current world wide events to have to worry about finding a new home . We should persevere our Pasadena community

I consent to have my comment read out loud during the meeting.
