It is essential to have a Behavioral Health Hospital in our community. Offering Hope, Help & Wellness.

The mind-body connection is real. To maximize overall health and well-being it is critical that mental health disorders be addressed and treated. Treatment of mental health conditions provides the needed support to both manage symptoms and process unresolved traumas or painful emotional events that may be contributing to the disorder.

Master Plan 5-10 years: Please do not hinder the project by limiting the construction to be completed in 5 years. Please allow it to take longer if needed.
