**Subject:** Planning Commission renewal of Las Encinas Master Plan

**CAUTION:** This email was delivered from the Internet. Do not click links or open attachments unless you know the content is safe.

I believe Las Encinas is not following their 2009 master plan approval conditions related to employee/visitor parking. Employees are parking on neighborhood streets everyday, leaving no space for the residents or resident visitors. When asked, employees state there is not enough parking or they are not allowed to use the Las Encinas parking. Further, employees move trash cans to sidewalks or across the street so they can park, and they leave trash on the street in front of the neighborhood houses.
