Dear Beilin Yu:

While walking in the neighborhood I noticed the signs at 350 and 356 S. Grand announcing a hearing at which an application to combine two single-family zoned parcels into one single-family zoned parcel will be considered. ***I support the application*** to combine the two parcels into one parcel and can think of no reason whatsoever why the application should be denied.

I am a 28-year resident of the neighborhood. My position on this application is informed by the following background and community involvement:

-
- Former member of the Board
- of Directors of West Pasadena Residents Association
-
-
- Former member of the Planning
- Commission, City of Pasadena
-
-
- Long-time member of Pasadena
- Heritage
-
-
- Long-time member of Friends
- of the Gamble House
-
-
- Bachelor of Architecture,
- University of Southern California
-

I appreciate the opportunity to provide this message of ***support for the application***.

Sincerely,

Ross S. Selvidge, Ph.D.
