Hello,

My name is Kathleen Torres and I'm a resident of City Council District 2. All Pasadenans deserve to know that when a law enforcement officer harms a community member that they and the department will be held accountable.

Creating strong civilian oversight of the PPD is just one tangible step that the city can do to enforce how public safety is done in our community. Therefore, I am calling on the Public Safety Committee to commit to creating a City Council proposal for a Civilian Oversight Committee that has real investigatory subpoena, and disciplinary power, made up of entirely non-law enforcement members.

Additionally, I am calling on the Public Safety Committee to create a City Council proposal for an Independent Police Auditor that is well funded and relative to the size of PPD's budget and sworn personnel.

Thank you for your attention to this important matter at this time. I believe the accomplishment of these items will make Pasadena a stronger city.

Sincerely,

Kathleen Torres

Hello,

My name is Jazmine De La Torre and I am a resident of City Council district 3. All Pasadenans deserve to know that when a law enforcement officer harms a community member that they and the department will be held accountable. Creating strong civilian oversight of the PPD is just one tangible step that the city can do to reamange how public safety is done in our community. Therefore I am calling on members of the Public Safety committee to commit to creating a City Council proposal for a Civilian Oversight Committee that has real investigatory, subpoena, and disciplinary power, made up of entirely non-law enforcement members. Additionally I am calling on the Public Safety Committee to create a City Council proposal for an Independent Police Auditor that is well funded and whose size and budget are relative to the size of PPD's budget and sworn personnel. This can be accomplished in large part through the existing city charter and where needed though new city ordinances and charter amendments within the power of the City Council.

The key points we are trying to hit are:

- Members would be **civilians, not elected officials or police officers.**
- The Committee would have **Subpoena and disciplinary power.**
- Model would include an **Independent Police Auditor** with expertise in policing who can lead investigations

Thank you,

Jazmine
