Dear Pasadena Design Commission:

I am writing in opposition of removing the tree at this project. We have a protected tree ordinance for a reason! Please DO NOT remove this tree.

Thank you,
Stacey Fortner

Dear Pasadena Design Commission,
Please save the tree. Way too many trees have been removed from our city over the last few years due to over-development and poorly designed development. Please stop taking out our beautiful trees.

Thank you,
Marion White

To Pasadena Design Commission:

Please do not cut down the tree at 253 South Los Robles. Trees are so important for the health and beauty of our city. That area has been stripped of all trees.

Thank you,

Suzanne Sanchez

Protect the tree on South Los Robles!

If it was a residential project you would force the owner to save it! Why is a developer/commercial project any different?

Hi,

I live on 1200 S. Oakland Avenue in Pasadena and I am requesting that the tree at the above address is not removed.

This tree has survived and endured years of draught and wind storms. In a time where daily news and death rates take us down, shouldn't you support and celebrate this living things that have lasted and endured for so long in our community. Trees are so important to Pasadena and it would be another blow to the citizens to have this tree removed or damaged.

Thank you for your consideration.

Kandis Jaffrey

I am saddened to hear that another tree is being considered for removal in our beloved city at 253 S. Los Robles. My family has lived in Pasadena since 1920 and I grew up on Oakland Ave riding my bike past the same trees (including this one) that my father did and my children did.

Please do NOT remove another precious tree and part of our city's beauty. Cement jungles are not where we are supposed to live. I hope that you hear the voices of your citizens and stop taking down our trees. They will be here long after you and me.... when you make the right decision.

With gratitude,

Heidi Johnson

Pasadena Design Commission save the tree. Enough with allowing developers to remove all of our greenery. Real estate and trees can coexist if you stop providing developers variance to remove trees. Don't allow this mature tree to be removed.

Hello,

I'd like to express my position re the taking down of the pine tree at this development. I'd like the tree to remain. The mature trees in Pasadena helps in making our neighborhoods unique and beautiful. Thank you.

Ryan Panzarello
S Los Robles Ave.
