Comments (under 200 words)	My name is Gina, and I live in district 3. I have had difficulty understanding this committee's perspective in creating a civilian oversight body with subpoena powers. Meeting after meeting, we as residents show up and plea our needs. My

community deserves a police oversight body comprised of an independent auditor and selected community members for the commission with subpoena power. We need accountability and transparency, which has failed in the past and will fail with the current proposal. My community has suffered due to the hands of PPD, and this committee has done nothing. I know changing the charter was voted No by six council members at the last council meeting. My councilmember and the majority of the public safety committee members except Councilmember Hampton were part of that six-person vote. I am disappointed that more control is not being given to the actual residents of Pasadena. The status quo has not worked, and the fight is not over. I am asking our elected officials to create a police oversight body comprising an independent auditor and community members for the commission with subpoena power. This is what the community needs and deserves!

Comments (under 200 words) As a starting point, the current proposal for Pasadena Police needs only one change: to be acceptable: Each council district should have a commission member chosen by some random method or lottery rather than by each council member as proposed. Mr. Madison constantly wants to be "measured" because he clearly has that luxury. Mr Hampton in his haste said that everything the council does is legal--meaning that some lawsuit may follow. Well likewise, everything the council does is political. And so what? Obfuscation and political mumbo jumbo notwithstanding, there is no reason to delay this action any further and simply get it done. If the commission does its job properly, it will be revisited often.

Comments (under 200 words)	I like to join the many in our city of Pasadena community in demanding a Civilian Police Oversight Committee be created. I and those engaged in our black and brown community and all persons of all colors are aligned with this demand. We

are organized and seeking that our voices are elevated to the city council so they vote in favor of the Kennedy/Tornek Proposal.
