Dear Jason-

We have been residents at 238 Glen Summer Road since 1993. One of the defining characteristics of our neighborhood is the clock tower and it's adjoining structure at the corner of Colorado and Melrose across from San Rafael Park. It provides a signature character and charm to all of us who live near it.

We believe this clock tower to be protected under CEQA as a "historical resource" and should qualify as a historic preservation site. We are deeply concerned with any such renovation regarding the clock tower and the area surrounding it.

Please let this serve as notice that our family is deeply concerned about any proposed renovation project that would endanger the charm and character of the current site. In addition, we will be contacting Pasadena Heritage Foundation to seek preservation of this beloved Pasadena landmark.

With best regards,

Patty and Bob Cartwright  
238 Glen Summer Road  
Pasadena, CA 91105
