I have lived on Glen Summer Road since 1974. When I purchased my home, I was aware of the commercial area on Colorado Blvd., and appreciated the open space which made the area feel connected to the residential area. I have frequented various businesses there over the years. However, I feel that this variance should be denied and the code should be upheld, as the expansion would visually encroach on the residential street. The planning code identifies this proposal as "minor". As a resident, I feel it is a major change to the neighborhood. I would request that you deny the variance to eliminate the five foot building setback.

Thank you, Judy Bailey
168 Glen Summer Road
