Dear Jason,

We wanted to write to you as proud homeowners on Glen Summer Road, just a block away from the iconic tower building at 1388 West Colorado Boulevard. We see it as the gateway to our idyllic neighborhood and an aesthetic signal of the historic significance in our beloved corner of West Pasadena. We are absolutely against its removal and certainly not in favor of losing or adjusting any of the current five foot setback. Furthermore, as this corner is opposite a treasured city park where so many neighborhood children gather to play, and many families walk to use the park along Colorado, we think a new landscaped parkway should replace the existing concrete to offset any loss of landscaped open space. We would so appreciate our comments read into the record of the public meeting.

Take care and thank you,

Mr. and Mrs. Eric Nyquist
