Dear Chair Toro, Members of the Design Commission, Kevin Johnson, and John Kennedy,

We are writing in support of the residential project at 254 E. Union St., AHCP #11870, with a total of 59 units, including 5 affordable. This project is in a great location, walkable to the Gold Line, as well as old town and Paseo Colorado. This will help lower rents and increase tax revenue, as well as house some of our poorest. We urge you to move the project forward by approving the concept design review, as well as finding no need for additional environmental review.

We urge you to move the project forward. The greater Los Angeles region is facing a severe housing shortage. This project will provide much needed housing. Abundant Housing LA believes that these housing challenges can only be addressed if everyone in the region does their part.

Best Regards,

Tami Kagan-Abrams
