Subject: 1410 Hillcrest Ave Support for Minor Variance #11929

Dear City of Pasadena Planning and Community Development Department Hearing Officer,

We are Lorin and Amy Knell, owners and residents of 1410 Hillcrest Ave. We live across the street from Eliz Lee and Eric Kau of 1475 Hillcrest Ave, on our private lane. We are writing to express support for their 1475 Hillcrest Ave Minor Variance #11929 to build a pool and spa in their backyard. Our property, along with their immediate neighbor's (also across the street from us) at 1465 Hillcrest Ave, as well as several other neighbors' properties in this private lane, all have backyard pools. Like everyone in this private lane and neighborhood, Eliz Lee, Eric Kau and their family should have the right to fully utilize their backyard or so called "front yard" to their family's benefit, and adding a pool and spa would not negatively affect neighbors in any way. Additionally, with younger children, and especially during this never-ending pandemic, having a pool as an extra form of activity for their kids to play outdoor would be very beneficial to their family, as our pool has been to our family.

Sincerely,

Lorin and Amy Knell
