

To Whom It May Concern at the City of Pasadena:

On behalf of the Pasadena Community Job Center, we write to share a bit about our partnership with the 10 West Walnut development team in Pasadena, who we have had the pleasure of working with during the construction of their project. Our organization seeks to connect Pasadena locals with jobs in our community.

Our organization has provided the project team with direct referrals for local workers. Some referrals are currently being reviewed for placement, while others have already been hired. In one case, one of our referrals was placed with a job on the site and we heard from the team that he has quickly developed a reputation for being a hard worker and is a great asset to the team.

The development team has shown great interest in working with us to identify local workers for this project. We appreciate their efforts.

Thank you.
