Hi City Officials.

Thank you for your hard work in listening to our community's thoughts and concerns. I would like to share that I don't want another car wash in my neighborhood that is being proposed. This neighborhood would be much better off as affordable housing, an art space, or local mom and pop retail because we already have 2 gas station car washes close (1 new car wash built just 2 years ago, and another car wash north of me). Can we approve something else that will improve our city and the quality of life of our residents? I would love to see this area be diversified with different businesses or housing options to draw more people in. Thanks for considering!

Concerned Resident,
Chin-Yee Chew
