Subject Minor use permit for the installation of a metal roof

Attention: Katherine Moran

We think the installation of a metal roof is both beneficial and desirable for 1483 Arroyo View Dr. as it is in a high fire risk area.

Obviously if there were a fire, a metal roof would be impervious to being set on fire by hot flying embers. All of us in this high fire area are sensitive to anything that can be done (like a metal roof) to reduce the fire exposure.

There are homes in Linda Vista with metal roofs, some for over 40 years. We support metal roofs as being prudent and aesthetically pleasing in all fire prone areas in Pasadena.

Sincerely,

F W & Martha Denzel Owners
