Comments	1). View - I think that the Accessory Structure #2 can be viewed directly from all the windows and sliding glass doors of my family room, kitchen dining & master bedroom. Please do visual analysis with something like story poles. 2). Drainage - please constructions are such that will ensure no runoff damages. 3). Fire Risk - the Accessory Structure #2 big distance away from San Rafael to have access to put out fires.
I consent to have my comment read out loud during the meeting.	No
