Comments	I would recommend that staff meet with representatives of the development community before the amendments are adopted to discuss the impacts of the ordinance in more detail and other possible changes to it. While the statement hat it has had no significant impact on the number of projects may be accurate, the type, quality, size, and location of many projects have been impacted and there a number of other additions or deletions that could be discussed.
I consent to have my comment read out loud during the meeting.	Yes
