Hi there - I am a resident/homeowner on S. Berkeley Ave. and was notified that a car wash has recently been approved for construction on Colorado and San Marino Ave.

We recently moved into this neighborhood with a newborn son and puppy and intend to raise our family here. There are already a number of cars who race down our street S. Berkeley Ave., and it would be terrible for this car wash to be build which would only increase congestion in the area.

Not to mention there are already a number of car washes in the immediate vicinity that aren't around residential areas that can be used.

Our neighborhood has a large number of young families and the construction of this car wash would be a huge net negative to the safety of the area.

Please reconsider this!
