1. Please share this with the members before the meeting
2. I use the Arroyo Seco and Hahamongna Park frequently.
3. I am in favor of the project. Let's get it done
4. You do not need more settling ponds in the JPL East parking lot. The existing settling ponds have more than enough capacity. Rarely do more than two have water in them.
5. There is a persistent water leak that crosses the road just north of the existing headworks. Please fix it, or provide a culvert as part of this project.
6. The two "temporary" bridges should be made permanent. They are of high quality and will last for many decades.
7. There is a pothole on the road leading from Windsor down into the JPL East lot. Please ask the appropriate department to fix it.

Thank you for your consideration

Rody

R. Rhoads (Rody) Stephenson
