- b. Any undertaking requiring a permit that significantly alters or changes the street-facing elevation or side elevations of a historic resource, including major changes to windows and doors or their openings, the application of new exterior wall cladding or coating which changes the appearance, design, or texture of a property, and the addition of dormers and other architectural features.

- d. In designated districts, demolition and alteration of garages and other accessory structures built within the period of significance on both contributing and non contributing properties and new construction of such structures on any designated historic property (districts and individual properties).
- e. Any addition on a non-street-facing side elevation or rear elevation if visible from a public right-of-way.
- f. Any undertaking not requiring a permit that materially alters significant features of a historic resource or that may have an adverse effect on the significance of a historic resource, including replacement of windows and doors in existing openings, resurfacing exterior finishes (e.g., plaster cement in a radically different texture), or abrasive cleaning of masonry.
