Hi,

I have looked at the options proposed and I don't think any of them look as nice as another option. I have emailed and called numerous city officials and have never gotten a response.

If you look at the Segovia Viaduct bridge in Segovia Spain, they have done a wonderful job of installing perspex barriers on the bridge. This prevents jumpers and delivers a wonderful view. They have not had any suicides since it was installed. It would save the beautiful view we have on the Colorado Street bridge.

Please take a look at alternatives before a decision is made. Feel free to call me if you have questions. And, please pass this along to anyone who will make the final decision on the bridge barrier.

Thank you,
Mindy Schiffman
