RE: ZONING CODE AMENDMENT TO PARKING REQUIREMENTS FOR ADDITIONS TO EXISTING SINGLE-FAMILY RESIDENCES

I believe the proposed changes to this amendment are not only realistic but will also keep construction costs down for the owners of single family residences who have chosen to make an investment in their homes. I know very few home owners who use either garages or covered spaces for their cars but instead use them for storage places. Most driveways are the chosen place used to park cars and I can't see that updating the code will have an impact on street parking and/or an increase in overnight permit requests.
