Gentlepeople –

I write to support the citizen volunteers to essentially do away with PDs (- planning directors) changing the rules by which the city governs itself and their nature when it comes to the construction / building on city properties. This present procedure avoids citizen oversight and replaces the rules in force to the rules created by the PD's. This is another form of corrupting the process by which we govern ourselves.

This email is to add my voice to change from the PDs making the rules to one of adhering to the rules in force for everybody. There may be some grey areas but the present approach letting PDs overriding the rules is not conducive to representative government in a democracy. I think the overwhelming citizens of Pasadena would concur.
