Dear Mr. Takeda,

I would like to offer the following public comment in support of the proposed project at 1870-1890 E. Walnut Street.

Pasadena is in desperate need of housing - this is a fact no one can dispute. The project being proposed by Heritage Housing Partners could not be more appropriate for the location on Walnut. HHP is one of the most respected builders in the City and is responsible for some of the best projects ever built in Pasadena. The design and massing is sensitive to the surrounding neighborhood and will bring much needed revitalization to the area.

I live nearby and drive through the area regularly, often several times a day. There is always very light to moderate traffic, so the area can manage any additional car trips resulting from the project. Additionally, being just two blocks metro line and its close proximity to grocery, restaurants and shopping make this location ideal for a project of this density.

Thank you for your time and consideration.
