

Transportation Impact Study Guidelines – Local Mobility Analysis Update

Transportation Advisory Commission
July 22, 2021

Background

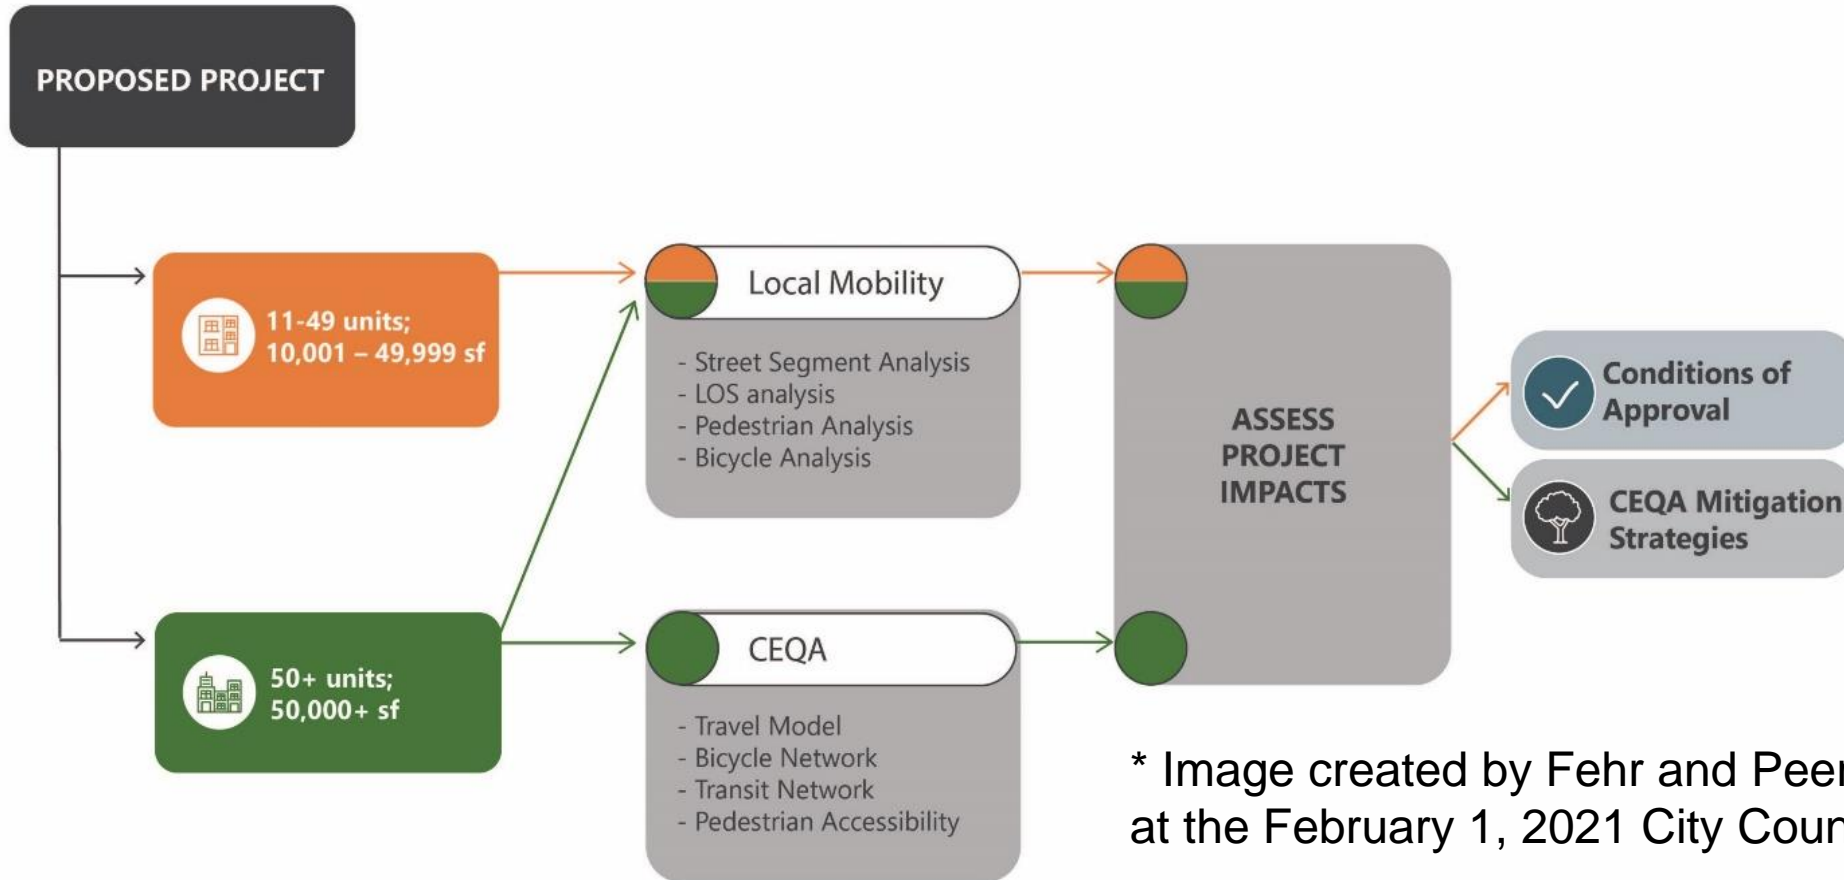

Department of Transportation

- DOT is responsible for identifying how the City's street network is affected by development traffic.
- Strategies are identified to either minimize or manage project-related traffic.
- The current Transportation Impact Study Guidelines were last updated in 2015.

Transportation Study Flowchart

Department of Transportation

* Image created by Fehr and Peers and presented at the February 1, 2021 City Council meeting.
