Hello,

I'm writing as a resident of council district 7 and the Madison Heights neighborhood to voice my support for two projects in front of the design commission this week.

Both 747 E Green Street, and 253 S Los Robles add much needed residential density to Pasadena. 747 E Green Street in particular will add mixed use density with a design contextual to the neighborhood that will enhance the neighborhood with street level commercial use.

Concerns about additional traffic related to the Los Robles project are unfounded, particularly if the city of Pasadena continues to improve pedestrian, bike and transit infrastructure that enable residents like myself to work and shop in Pasadena without needing a car.

Thank you,
Brian Bruegge
