Project Location: 1116 Glen Avenue, Pasadena, CA

Subject: The applicant, Damien Pichardo, has submitted a Minor Conditional Use Permit application to allow the installation and operation of a wireless telecommunications facility (Wireless Telecommunications Antenna Facilities, Minor) on the roof of an existing government building. The project consists of the installation of antennas, ancillary equipment, and screening materials mounted to the roof of the building.

Environmental Determination: This project has been determined to be exempt from environmental review pursuant to the guidelines of the California Environmental Quality Act (Public Resources Code §21080(b)(9); Administrative Code, Title 14, Chapter 3, §15303, Class 3, New Construction or Conversion of Small Structures) and there are no features that distinguish this project from others in the exempt class and, therefore, there are no unusual circumstances. Section 15303 exempts from environmental review the construction of, or installation of, small new equipment or facilities. The existing primary use of the site will remain a government building and the wireless telecommunications facility proposed on the roof of the existing building is an accessory component.
