Dear Committee Members and staff,

As a regular use of Hahamonga Watershed Park and a long-time resident of the City of Pasadena, I write this afternoon to urge your support for the realization of a long-planned Environmental Education Center at the Annex.

It has been over two decades since the Hahamonga Watershed Park Master Plan was adopted and envisioned the development of such a resource for our community. With our region already confronting the very serious impacts of a changing climate, the need for environmental education has arguably never been greater.

Thankfully our City is also home to tremendous community advocates, educators, organizations, and stakeholders with relevant expertise. Please take advantage of their willingness to create a space for environmental education in Hahamonga Watershed Park.

Thank you for your service and consideration,

Wes Reutimann
