Hazard Mitigation Plan Update

For Public Comment and Review

*Please complete the Survey located
at the end of this presentation*

City of Pasadena Fire Department

Welcome to the Hazard Mitigation Planning Process

- Beginning in January 2018, the Pasadena Fire Department began efforts to update the City's Hazard Mitigation Plan. The purpose of the LHMP is to identify local policies and actions to reduce the loss of life and property, human suffering, economic disruption, and disaster assistance costs resulting from natural disasters.
- The Hazard Mitigation Plan must be updated every five years according to the Federal Disaster Mitigation Act of 2000 and is a precondition for receiving FEMA hazard mitigation assistance grants.
- **Public involvement is critical to the plan as the LHMP must represent the current needs and values of the community.** The [survey](#) included at the end of this presentation is just one of the ways we are seeking public input. Public Outreach Meetings are also being scheduled.
- The Pasadena Fire Department Disaster Preparedness Office is serving as the lead agency with the support of a Citywide Steering Committee. A consulting team has also been hired to provide guidance and technical assistance.
- We thank you for your participation in this very important planning process!!!

Goals of the Project

- Update the Hazard Mitigation Plan (HMP)
 - Updated every 5 years to remain eligible to receive Hazard Mitigation Assistance grants
 - Last approved in 2013
- Ensure regional coordination
- Encourage regional mitigation strategies
- Provide technical assistance
- Provide a catalyst for implementation

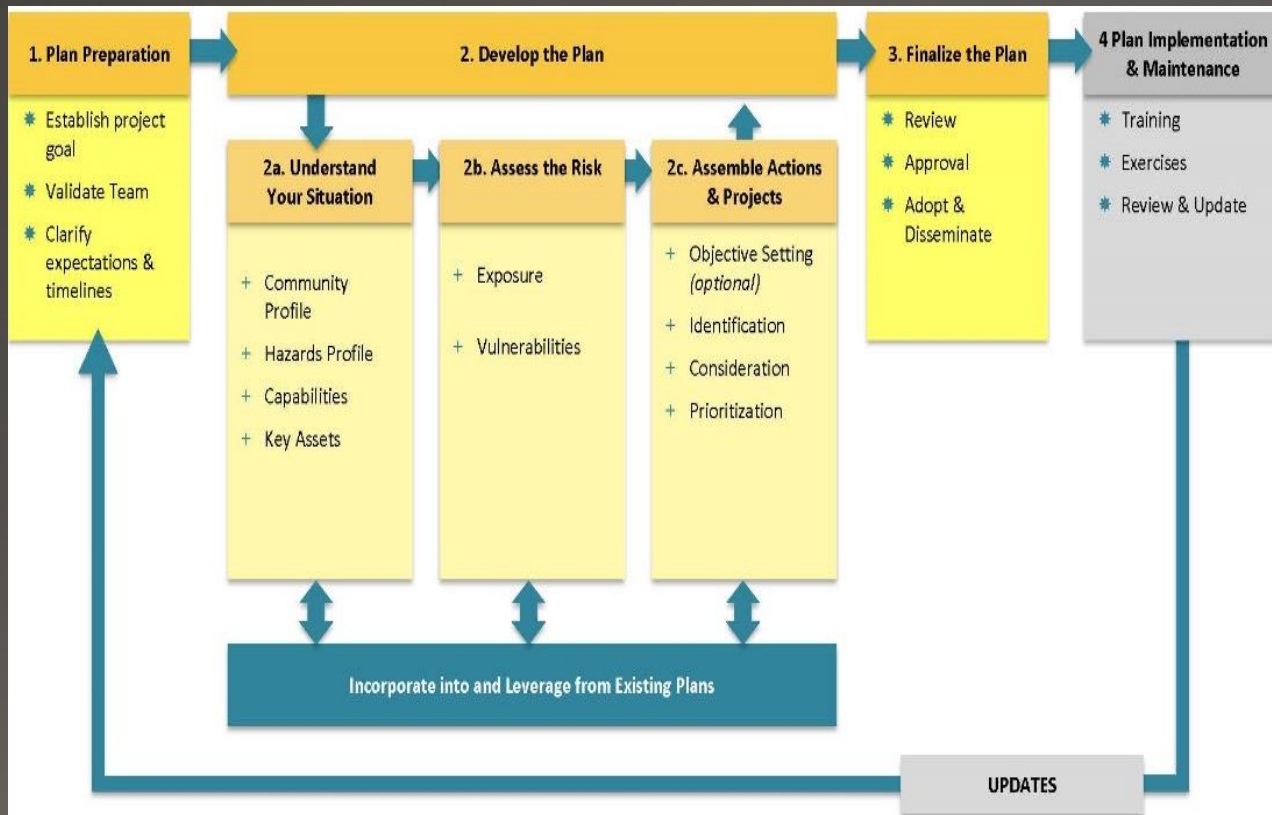

Objective of Hazard Mitigation Plan

- Utilize a comprehensive approach
 - Multi-hazards
 - Engage the public and others
- Understand capabilities and vulnerabilities
- Identify projects and actions
- Integrated with other planning efforts
- Meet eligibility requirements to receive HMA grants

Proposed Update Methodology

- Steering Committee
- Public Outreach

Role of the Steering Committee

The City's Hazard Mitigation Steering Committee is multi-disciplinary group of key City representatives operating under the direction of the City's Fire Department. Their responsibilities include:

- Validate planning approach
- Provide information
- Primary liaison with community and stakeholders
- Promote public participation
- Collaborate with other Steering Committee members
- Update and review sections
- Address Federal/State comments
- Oversee the adoption of the plan

Community Hazards Considered

1. Earthquake
2. Wildfire
3. Flood
4. Landslides
5. Drought/Water Shortage
6. Extreme Heat
7. Hailstorm
8. Windstorm
9. Energy Shortage
10. Air Pollution
11. Oil Spill
12. Dam Failure
