

Toddler Build and Play

Recommended Age: 18 months+

Activities designed especially for toddlers to build puzzles, make structures out of magnetic blocks, and even make wheeled vehicles!

Steam Kit: Toddler Build And Play
Recommended Age: 18 months +

Contents List

- **Book: Blocks by Irene Dickson**
- **Book: Charlie Builds by Bob Bianchini**
- **1-2-3 Build It! 15-Piece**
 - Main Body piece
 - Character Screwdriver
 - Wing
 - Tail Wing
 - Round Engine Wheel
 - Propeller
 - Boat Hull
 - Car Chassis Front
 - Car Chassis Back
 - 6 Wheels
- **PlanToys Gears and Puzzle**
 - 10 Small Gear Pieces
 - 1 Big Gear Piece
 - 13 Puzzle Pieces
- **Tegu Magnetic Blocks and Wheels 42-piece set**
 - 6 Cubes
 - 6 Short Planks
 - 6 Long Planks
 - 6 Mega Planks
 - 4 Short Columns
 - 4 Long Columns
 - 2 Parallelograms
 - 4 Trapezoids
 - 4 Small Wheels
- **Tegu Magnetic Wooden Wheels Set**
 - 4 Big Wheels

Recommended Age: 18 months +

Getting Started Guide

The 1-2-3 Build It! Set comes with everything you need to build either a car, a boat or an airplane. The pieces simply snap together and snap apart. Refer to the pictures in the instruction booklet provided for information on how the pieces go together. If possible, engage your child in questions about where to put the pieces—“Should this propeller go in front of the red wheel, or behind it?” The fact that the instructions are only in pictures is helpful for prereader children to get an idea of how to look at a diagram and translate that two-dimensional image to three dimensions. It is, however, a challenge for children at this developmental level, so don’t be discouraged if your toddler is uninterested in the instructions. Just encourage your child to try putting pieces together alongside you.

The Tegu magnetic blocks and wheels connect easily, to make any building or vehicle you could want! We love them because of their absolute freedom for play and creativity. You can try incorporating other magnetic objects, too—like paperclips, spoons, or your refrigerator!

The PlanToys gears and puzzle pieces can fit together to make a puzzle that has an added quality of movement, and stimulates a toddler’s developing understanding of how things fit together, and how the movement of one can impact another. You can try asking questions and making predictions: “If I turn the circle of this pink gear to the right, which direction will the circle on the green gear turn?”
