

NOTICE OF PUBLIC MEETING

Oak Grove Area Improvement (OGAI) Project

You may remember a City project in Ha-hamongna called the "Multi-Benefit/Multi-Use Project (MBMU)". In the summer of 2012, a Notice of Preparation (NOP) and Initial Study were prepared and Community and Scoping Meetings took place on this project.

In response to comments received during that process, the City elected to not move forward with two of the MBMU projects. These were the Sycamore Grove Field project and the Habitat Restoration project in the Devil's Gate Basin. The removal of these two projects changed the scope of work for the MBMU project and as a result, the environmental process for the MBMU project was stopped. The community was informed that a new environmental process would resume once the scope of work for the remaining projects was better known.

That time has come. The City is ready to develop a revised scope of work for the Oak Grove area of the park. The MBMU project title has been replaced with a new overall project title: The Oak Grove Area Improvement (OGAI) Project. The OGAI Project is located at the southwestern edge of Ha-hamongna Watershed Park.

The City has formed an Ad Hoc Stakeholder Group for the OGAI Project comprised of various park user groups. The purpose of the group will be to develop the components of the OGAI project and provide feedback that will help shape the design and implementation of the project. The group has been meeting for several weeks and is ready to present a concept plan to the community and receive public input.

Public Community Meeting

Wednesday, October 22, 2014

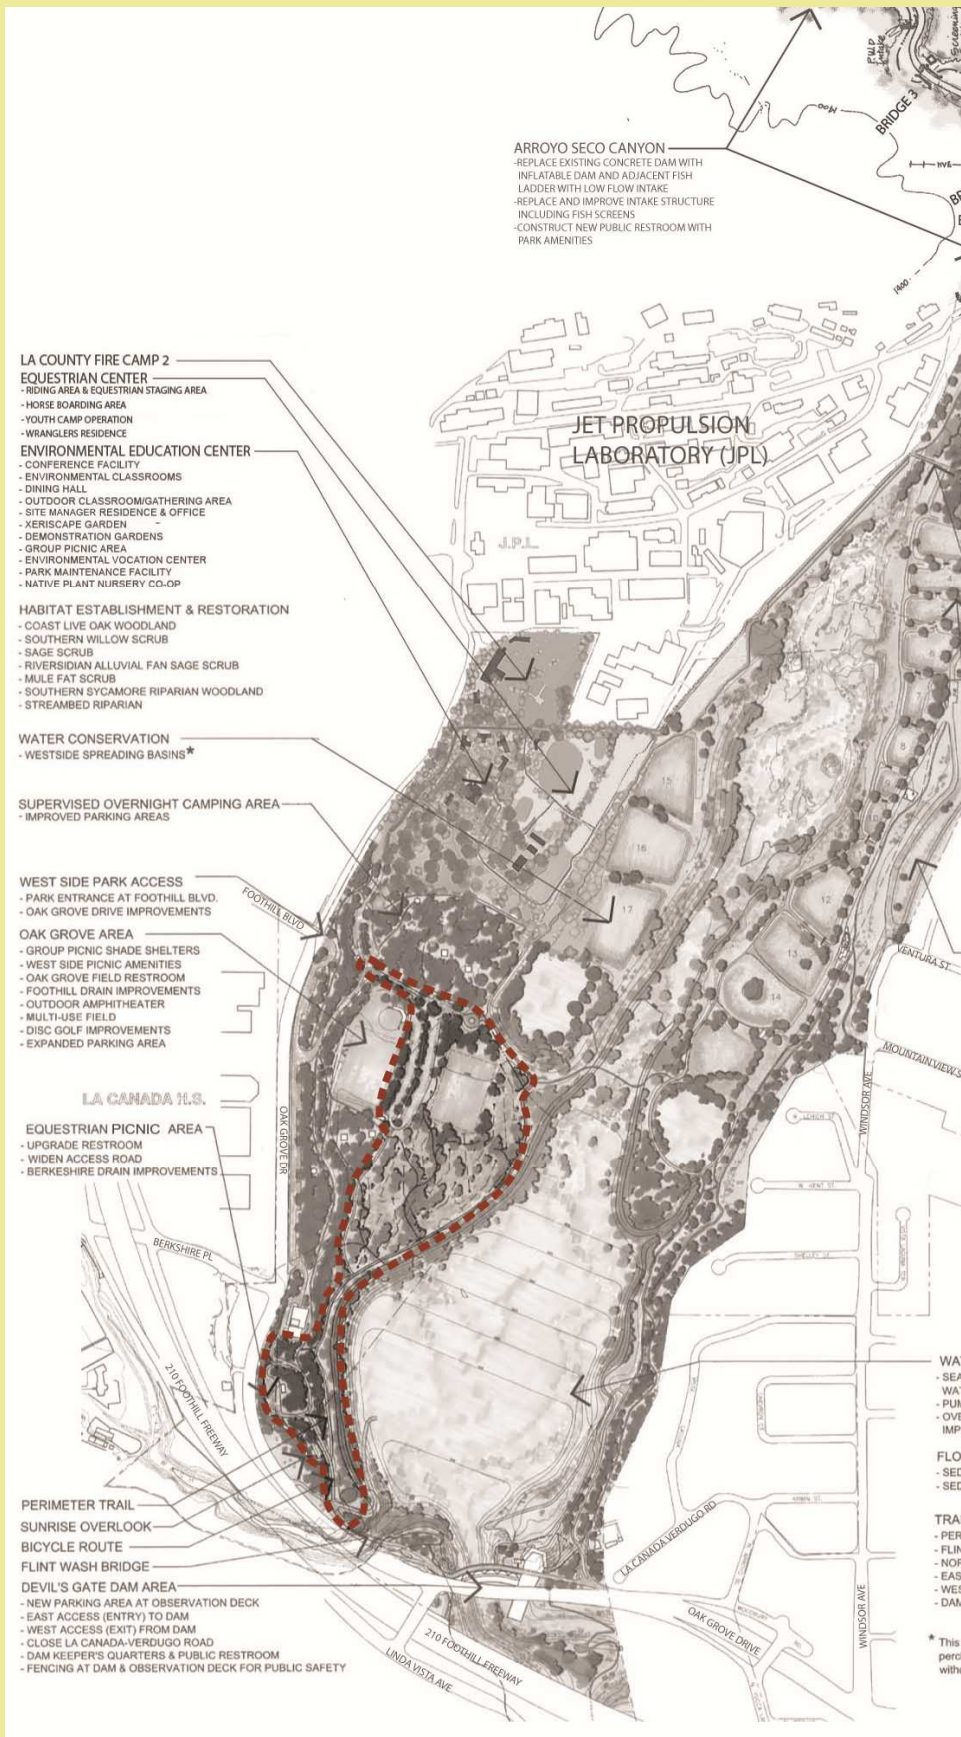

6:00pm

Pasadena City Yards

2nd Floor Conference Room

233 W. Mountain St.

Pasadena, CA
