Subject: Arcade/Miniature Golf/Cannabis Lounge License Request

CAUTION: This email was delivered from the Internet. Do not click links or open attachments unless you know the content is safe.

Greetings City of Pasadena,

The Bureau of Cannabis Control has advised me that before it can consider an application for a “cannabis lounge” license, approval must be first obtained from the city where the enterprise is to be located. With this in mind, please advise if the City of Pasadena would consider providing an appropriate business license for a recreation-type enterprise for ages 21+ that would include the following:

- Pinball and Video Game Arcade
- Miniature Golf

The enterprise would allow for cannabis smoking throughout the premises (Cannabis Lounge). Absolutely no cannabis products would be sold on site. The site and estimated square footage in Pasadena – TBD.

Thank you for your consideration of this inquiry. I look forward to your response and direction with the hope of bringing this unique, modern and fun amusement center to the City of Pasadena – that would likely attract a plethora of visitors from all over the planet!

Sincerely

Gary Lane
