Hi,

Correction to my previous email - we are not interested in applying for a commercial cannabis permit.

I would only like to know if the space (located at 2176-2184 E Colorado Blvd in Pasadena) is eligible for any cannabis related use/business (retailers, testing labs, etc.).

Would the potential buyer be able to lease the space for those purposes?

Good Afternoon,

I have a commercial space that will be hitting the market soon located at 2176-2184 E Colorado Blvd. in Pasadena and I would like to know if it is located in a green zone.

Does this space allow for any cannabis related business? Will there be another application window to apply for a commercial cannabis permit?

Thank you,

**Victoria Ascarrunz**
