**Subject:** public records

If Sweetflower has updated it's CUP application to include a certification statement from a Land Surveyor, I would like to come and inspect that document today.

I would also like to inspect the map documents for any District 3 applicant that has submitted an application since June 13.

Please let me know if Sweetflower has updated it's initial application for any reason or if any other applications by any applicant have been filed for District 3 since June 13.

If there have been no filings in District 3 since June 13 (including amended filings) then I do not need to inspect these public records.

**Subject:** RE: cannabis list

Mr. Truitt,

The distribution list that you subscribed for has not received email notifications since the top-scoring applicants were announced earlier this month. Separately, there is direct email communications between the City to the 6 top-scoring applicants about the CUP process. Those 6 top applicants were asked to provide the City with 2 representatives each and those are the only individuals that are included in the communications.

Respectfully,

**Guille Nuñez** | Management Analyst IV (Concierge)  
Hale Building, 175 N. Garfield Avenue | Pasadena, CA 91101

**Subject:** cannabis list

**CAUTION:** This email was delivered from the Internet. Do not click links or open attachments unless you know the content is safe.

Ms. Nunez:

I signed up to get cannabis updates from the city but I am not getting the application updates being sent out to applicants.

Can you please add me to the distribution list?

Thank you

Martin Truitt
