

CITY OF PASADENA

Notice Inviting Bids

For

Multi-Sensor HD Thermal Imaging Camera and Helicopter Installation

1. Summary

Notice is hereby given that the City of Pasadena is calling for sealed bids for the Police Department and will receive sealed bids prior to but not later than 2:00 pm, Monday, March 20, 2023 and will electronically unseal and make them available online (<https://procurement.opengov.com/portal/pasadena>) for this solicitation named "**Multi-Sensor HD Thermal Imaging Camera and Helicopter Installation**" Project ID: 2023-IFB-LM-152.

Submittal Instructions

Bids will be received via the City's [eProcurement Portal](#). A bid received after the time set for the bid opening shall not be considered. Bidders are required to submit (upload) all items listed in the [#Bidder's Submittals/Checklist](#). Addenda shall be acknowledged via the City's eProcurement Portal. Bids will be received prior to 2:00 pm on Monday, March 20, 2023 and will be opened online at that time.

Copies of the Specifications and all required forms may be obtained for this solicitation online: <https://procurement.opengov.com/portal/pasadena/projects/39068>

Refer to the Specifications for complete details and bidding requirements. The Specification and this Notice shall be considered a part of any contract made pursuant thereunder.

All bid pricing must be entered into the City's [eProcurement Portal](#) or the bid may be considered informal and deemed non-responsive, do not use a separate document attachment to represent your pricing. All required attachments must be completed and uploaded electronically into City's [eProcurement Portal](#) prior to the set bid date and time in this Notice Inviting Bids.

The Pasadena (CA) Police Department Air Operations Section is requesting bids from qualified vendors for the purchase of and installation of a Hi-Def, multi-sensor thermal imaging camera. The installation will be for one Bell OH-58 police helicopter used for law enforcement and other public safety missions. The intent of this upgrade is to ensure the standardization of equipment across the Air Operations' fleet, providing an overall aircraft configuration that matches mission needs while improving safety.

2. Background

The Pasadena Air Operations Section conducts law enforcement and other public safety missions for multiple agencies and jurisdictions. This includes the Foothill Air Support Team, a long standing regional operation that currently consists of 10 cities. The helicopter fleet consists of three Bell OH-58's, one Bell 206-BIII, and one MD-500E. Air Operations personnel have been utilizing IR thermal imaging cameras to support their missions for over 25 years. To enhance safety and improve overall operations, the Air Operations section is seeking to standardize its most effective piece of equipment on the helicopter, the Hi-Def thermal imaging camera system.

Release Dated: Thursday, March 9, 2023
