PASADENA SAFE ROUTES TO SCHOOL PROGRAM

In Pasadena, we are working to make our streets safer for children and families to walk to school. SRTS programs aim at increasing the number of students who choose active (walking, bicycling, scooter, skateboarding) or shared (public transit, carpooling) mode of transportation to school by making it safer and more accessible to walk, bicycle and/or take transit.

THE SRTS PROGRAM WILL INCLUDE:

- *Walk to School Encouragement Activities and events*
- *Visit the bike repair stations to get your bike fixed and drop in to learn about active opportunities at our at our School Bike/Active Classroom Hubs*
- *Walking/biking school busses to walk on designated routes to school!*
- *High School Safe Routes Youth Advocate Program*
- *Safe Routes to School Parent Leader Program*
- *Road safety presentations and workshops*
