Good morning,

I understand that last Wednesday, June 5th, the city of Pasadena posted the rankings list produced as a result of the commercial cannabis application process.

I was looking through the ordinances related to commercial cannabis activities in the city, as well as the FAQs and past informational documents posted on the city's Marijuana Regulations web page, and could not find language to address the ability to appeal the decisions made at this phase of the review process.

Can you tell me whether or not the rankings as posted on June 5th are able to be appealed? If so, what is the deadline for applicants to file an appeal?

Thank you.

Best,
