Mr. Reyes:

Now we learn today (July 17) that Richard McDonald filed hard copies of his CUP application and the city accepted fees from him on July 9.

This is the same individual that received special help from your staff in vetting locations.

It remains to be seen if your staff conspired with McDonald to hide this location from the city council, public and other applicants by intentionally circulating a cannabis map they knew concealed this location.

You specifically promised me daily updates of CUP activity and you failed to disclose this for 8 days.

Your broken promises are denying me due process.

Are you or are you not going to provide daily updates?

This is a public records act request.

I want any written determination that the city considers the Harvest application filed yesterday is complete.

If that document does not yet exist then I want a copy of it as soon as it is prepared.

I note that Integral Associates Dena, LLC paid fees and submitted hard copies on July 9 and you did not disclose this fact until today (July 17).

You have absolutely failed to keep your promise to me to provide daily updates of the CUP application process and the city manager's statements about the transparency of this process are being shown to be false on a daily basis.
